ABOUT ME

Player Experience Manager with 7+ years in customer support operations, Trust & Safety, and content moderation across the gaming industry. At Rovio I own a portfolio of 15+ mobile titles, lead an external moderation team of 10, and manage the Player Experience team's tools infrastructure. Built and maintain a multilingual blocklist across 22 languages and 2,700+ entries, screening ~2M events per week. Led the Zendesk → Helpshift migration and AI deflection programme across 23 titles, delivering significant operational savings and industry-leading deflection results.

PROFESSIONAL EXPERIENCE

Rovio Entertainment

Apr 2024 – Jun 2026

Player Experience Manager

- Lead external moderation team of 10 and own all player-facing GDPR and privacy functions across Rovio's title portfolio
- Built and maintain a multilingual content moderation blocklist spanning 22 languages and 2,700+ entries, screening ~2M events per week
- Manage Tools & Tech infrastructure for the Player Experience team, including ongoing ownership and development of the Helpshift CRM platform; served as main stakeholder in migration to a new moderation platform
- PS Lead for the Legacy and Longtail portfolio of 15+ Angry Birds and Rovio mobile titles
- Mentor team members across Player Support, Trust & Safety, and content moderation functions

Rovio Entertainment

Sep 2022 – Apr 2024

Player Support Manager

- PS Lead for Angry Birds 2, Angry Birds Journey, and the broader Rovio legacy portfolio, handling 10,000–15,000 support tickets per month
- Led full CRM migration of 23 titles from Zendesk to Helpshift in under 8 months, designing the end-to-end player support flow from scratch
- Launched AI-driven ticket categorisation and deflection across the portfolio, achieving a 91% deflection rate, 55% reduction in monthly issue volume, and contributing to \$1.7M in operational savings
- Assisted game and PS teams with tool design to enable faster player profile management and improve time-to-resolution
- Onboarded 5 new titles onto Helpshift in collaboration with game and tech teams

Critical Force

Sep 2020 – Sep 2022

Player Experience Manager

- Led internal Customer Support team and drove CS development via Helpshift, including workflows, best practices, and player-facing GDPR processes
- Managed player communications across social media channels and in-product LiveOps tools
- Assisted Brand Manager on product and company branding, including copywriting for product and company news
- Wrote SQL queries to investigate fraud and abuse cases, partnering with the security engineer on player integrity incidents
- Collaborated with Community and Esports teams on community management and esports-related projects

Critical Force

Feb 2020 – Sep 2020

Customer Support & LiveOps Lead

- Managed social media presence across Twitter, Facebook, and Instagram, covering both marketing and community management
- Proposed and developed LiveOps content concepts and assisted in the design of in-product LiveOps tools
- Handled company and product PR, maintained websites, and produced job advertisements, with responsibilities extending significantly beyond a typical CS Lead role

Critical Force

Mar 2019 – Feb 2020

Customer Support Specialist

- Managed handover of CS ownership from the previous process owner, including operative support, FAQ development, and Helpshift automations
- Prepared daily, weekly, and monthly CS performance reports for key product stakeholders
- Performed community management across Discord, Reddit, Facebook, and Twitter; provided direct player support on social platforms
- Collaborated with the development team on anti-cheat and security matters; supported QA with reproduction cases
- Prepared CS system and process training for colleagues and new internal agents

Esports & Content Creator

Aug 2016 – Mar 2019

- Community forum moderator, Over.gg (Overwatch)
- Twitch Partner
- Professional FPS player, ENCE Esports (one of the leading Nordic esports organizations) and other organizations
